SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—For any skin trouble try our Saxo Salve. We guarantee it.

FILLED LAST MAIN
STREET CISTERN

Old Methods Used by Early Fire
Fighters Now Numbered With
the Things That Were.

While at work cutting down Main street for paving yesterday at the intersection of Main and Mosely streets, the forces uncovered the last of the old cisterns that were used as a fire protection for the city about thirty years ago. There were five of the cisterns and they were on nearly every block on Main street. The one uncovered was about 15 feet deep and about 12 feet in diameter at the bottom, with a very small opening at the top. While filling this up a large number of people were attracted to the spot who never knew there were ever any underground cisterns on Main street.

This old relic takes us back to one of the oldest fire companies Bryan ever had. The oldest records were between 1877 and 1882, and the fire department was divided into Engine Company No. 1, Alert Engine Company No. 2 and Hook and Ladder Company No. 1. The members and officers then were as follows: President, George L. Deaton; vice president, J. G. Barrow; secretary, N. W. Rector; treasurer, Mark Goldstein; foreman, D. B. McMorris; first assistant, W. C. Wilcox; second assistant, Simon Horetzky; steward, A. W. Boatwright. The members were: J. R. Cole, B. F. Leman, H. Rohde, T. P. Boyett, R. G. Tabor, F. H. Clark, Raymond Blatherwick, Ed Hall, Jack Hall, W. O. McIntosh, J. P. Gordon, B. P. Robinson, J. T. Beard, W. H. Mitchell, S. M. Darden, J. E. Bishop, P. Amato, C. S. Bee, J. B. Mike, R. S. Webb, J. T. Williamson, Will McConico and J. H. Wickes.

Many of these are dead and some of them have moved from Bryan, but a few of them are still here and can easily recall the time when the water was pumped from the old cisterns with a small engine fired with coal, and two old-time hand-pumping machines. The other four cisterns were filled about twenty years ago, and this one is the last of the relics of bygone days. While filling this one yesterday afternoon, one of the mules fell into it up to its neck, but was caught and held by the negroes until a strap was placed around its neck and it was pulled out by the other mules.

The filling of the last of these old reservoirs closes an interesting chapter in the early history of Bryan. In the years to come, the dwellers of the city, as they roll noisily along in their automobiles over the smoothly paved thoroughfare, will dream not of the crude and pioneer methods employed by their fathers and grandfathers in protecting the town from the fire demon.

WILL TAKE TRIP
ON HOG PROFITS

Clears \$525 on Three Pigs in One
Year and Starts on
Long Trip.

Spokane, Wash., Jan. 8.—Out of the profits realized from three pigs, purchased a year ago for \$30 each, J. K. Smawley, a farmer living 80 miles south of Spokane, has started on a trip around the United States.

Smawley has \$525 for the trip, and in addition has the three pigs with which he started his herd. At the Lewiston (Idaho) live stock show a little more than a year ago he purchased the original trio of Berkshire

hogs for \$30 each. With a delegation of their offspring he returned to the live stock show this year and his young pigs won six blue ribbons.

There was a lively demand for Smawley's young porkers, and he sold 15 for \$35 each, a total of \$525. With this amount, which he characterizes as "velvet" because hog raising with him is a side issue to wheat farming, Smawley has started his journey, which will include stops at New York, Washington, Baltimore, points in the Carolinas, where he formerly lived, and in other Southern States. He will return through Texas, California and Oregon.

BIG BUCKS DIED
WITH HORNS LOCKED

Spokane, Wash., Jan. 8.—With their horns interlocked so that it has been impossible to extricate them, hunters at Priest Lake, in Northern Idaho, last week found the bodies of two big deer which had battled for supremacy in the forest. One of the bucks had already expired, but the other was still alive when found by the hunters. One buck had 14 points on its antlers and the other 10. The hunters attempted to force the antlers apart, but have been unsuccessful. The heads will be mounted in their deadly embrace.

Cole's Original

Air-Tight

Wood Stove

From zero to seventy degrees Fahrenheit is a big jump—but it is an easy stunt for this remarkable heater.

Five minutes in time is all that is needed.

Think of what that means to you on a cold morning—of the time you save. No building of a new fire. You put in a fresh stick and away she goes.

That isn't all. You get a steady, controllable heat hour after hour.

Think what this means to your family—in illness prevented and doctor's bills avoided.

Think of what it means in comfort—quickly and cheaply furnished.

Then come in while it is still in your mind.

An inspection will decide the matter.

It is just the stove you need. Burns wood and lighter fuel.

"Cole's," the Original Patented
Air-Tight Heater, is sold only by us

See the name "Cole's" is on the feed door of each stove. None genuine without it.
